

Gexpro Baton Rouge
invites you to learn more about
GE's Arc Vault Protection System

**Out the box thinking.
Inside the box protection.**

The Arc Vault protection system from GE is an innovative leap forward in arc flash protection.

Come see the innovative new Arc Vault for yourself in a special product demonstration and presentation.

The GE Arc Vault system offers significant benefits compared to existing products and systems.

- The ability to offer arc flash protection with doors and compartments open
- Reduced operation energy
- Reduced construction costs
- The ability to retrofit existing switchgear

**Free to attend – Lunch will be provided
