

OASIS Mobile: Delivering cost savings & efficiency

Gexpro delivers productivity, labor savings *and* the material you need.

Time is money. The more time you save, the more money you make. Gexpro's *OASIS Mobile* Solution delivers time savings and efficiency to your projects:

- Solar installations
- Oil & Gas drilling
- Retrofits
- ...and more

A turn-key solution.

Gexpro provides a turn-key, tow-behind trailer solution. We work to understand your material needs - when you're ready, a fully-loaded trailer is delivered directly to your site.

Efficiency in a box – with a hitch and wheels.

OASIS Mobile provides the inventory storage space, work area and organization you need to maximize your productivity. Gexpro delivers everything at the start of the project; so you can focus on the job itself.

Upon completion, Gexpro picks up the trailer, processes any returns and restocks it to your specifications for the next project. It's that easy.

Gexpro removes excess packaging when stocking the trailer. Place your empty boxes back in the trailer before pick up to reduce clutter and costly closeout labor.

An *OASIS Mobile* Program dramatically reduces procurement and labor costs, virtually eliminates over-ordering and keeps your product secure.

OASIS Mobile.

(Sizes & styles may vary)
